Attorney Docket No. 08702.0048-03000

4. Said plasmid has been deposited under conditions which ensure that access to this culture will be available during the pendency of this patent application to one detailed by the Commissioner of Patents and Trademarks to be entitled thereto under 37 C.F.R. Section 1.14 and 35 U.S.C. Section 1.22.

5. No later than issuance of a patent on this application, Genetics Institute, LLC will irrevocably remove any restrictions as to public availability of this culture deposit except as permitted by 37 C.F.R. Section 1.808(b), and will replace the culture deposit should it become nonviable, during the period that extends thirty years from the date of the deposit, or the period of the enforceable life of the patent, or the period of five years after the last public request for the deposit, whichever period is longest.

6. I further declare that all statements made herein of my own knowledge are true; that all statements made on information and belief are believed to be true; that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code; and that such willful false statements may jeopardize the validity of the application or any patent issuing thereon.

7. The undersigned is authorized to sign on behalf of assignee, Genetics Institute, LLC.

The deposits were accompanied by: a scientific description a proposed taxonomic description indicated above.

The deposits were received August 5, 1993 by this International Depository Authority and have been accepted.

AT YOUR REQUEST:

We will inform you of requests for the strains for 30 years.

The strains will be made available if a patent office signatory to the Budapest Treaty certifies one's right to receive, or if a U.S. Patent is issued citing the strains.

If the cultures should die or be destroyed during the effective term of the deposit, it shall be your responsibility to replace them with living cultures of the same.

The strains will be maintained for a period of at least 30 years after the date of deposit, and for a period of at least five years after the most recent request for a sample. The United States and many other countries are signatory to the Budapest Treaty.

The viability of the cultures cited above was tested August 9, 1993. On that date, the cultures were viable.
